EARLYON ACTIVITES

KIDS SNACK

We provide children a snack daily at approximately 10:15 am. Snack is a chance for the children to eat in a social setting, share food, take turns and make choices. Snack normally consist of protein, fruit/veggie and carbohydrate.

CIRCLE TIME

At about 10:30 we gather to listen to a story and sing some songs. The best circles have adults joining in the songs and actions because your children will take their cue from you.

COFFEE & TEA

Coffee and Tea are available during program. You are welcome to help yourself when you come in for a visit.

ART ACTIVITIES

Self-expression and sensory experiences are very important part of early learning. Your child can practice cutting, painting, drawing, selecting and arranging.

SENSORY PLAY

Sensory play is an important part of your child's development. We offer a variety of different sensory activities that your child can participate in at their own pace.

FAMILY RESOURCES

We offer a variety of resources for participants to take advantage of including a toy and resource lending library and a clothing exchange.
